Order by 12pm Monday, pick it up that Friday at our warehouse or have it delivered on your delivery day.

### Best IG Units. Period.

From float glass to sealing a finished IG unit, Cardinal monitors and inspects in all aspects of the manufacturing process. All glass product is monitored (*computer work stations shown at right*) and inspected by calibrated scientific instrumentation. This means quality standards are not subject to human interpretation. Glass that is ordered and provided to you is of the highest quality, clean, and precisely what you ordered.

## Laminated Glass

Cardinal's Laminated Glass is available in single, single w/LoE, and Insulated Glass Units. Optional Impact Rating can be provided on the glass. In addition to providing enhanced security, laminated glass also increases acoustic performance.

Shown is break pattern of laminated glass which is held together by the inner layer.

## Glazing Accessories

In addition to mono, insulated, and triple pane glass. Casco also supplies glass setting blocks, Dow Corning 1199 Glazing Material and OSI's window installation system. Our goal is to make obtaining material for your business as easy as possible.

Tubes of glazing silicone are available in single tubes or 12 tube packs.

## Specialty Glass

Looking for something special? Items like spandrel glass, Graylite® II, Azuria™ (formerly Azurlite®), Starphire are also available through Casco. If you have something special, bring us a sample and we will do our best to help!

Azuria™ glass featured in an office building project.

## Shaped/Curved Glass

TEMPLATES BE GONE! With Casco's easy reference dimensions, most shapes and curved glass units do not require our customers to provide a template. Ask your sales staff member for a our reference chart so you can be ready in the field.

Sample trapezoid shape. No template required.

Join us on our social media pages to stay up to date on glass news as well as other products supplied from Casco.
