Expanse™ retractable screen panels

The innovative panels designed for porch and patio enclosures offer panoramic views of the outdoors while easily sliding open to reveal dual, top and bottom retractable screens that let in fresh air and keep the bugs out. Expanse™ is available in extra-large custom sizes.

Innovative technology

The patented design features dual sashes that optimize natural airflow and comfort. The counterbalanced panels make it incredibly easy to operate, and the retractable screens simply disappear when the panels are closed.

Increase profits

Expanse™ is designed to fit a non-heated, non-air conditioned space for enclosed porch projects — as a screen window replacement or in new construction.

Designed for easy installation — perfect for a weekend DIY project.
