

STORM PRODUCT DISPLAY

Casco Industries

This sturdy, wall-mounted display showcases five distinct window samples, four storm doors with hardware, and a porch enclosure display. Designed for both in-store presentation and hands-on customer interaction, the samples can be easily removed for field demonstrations by sales representatives.

To ensure stability, the display must be securely anchored to a wall due to the swinging motion of the samples. All necessary installation hardware, accessories, and step-by-step instructions are included for easy setup.
Display Dimensions: 24"W x 80" H x 24"D

Included in display purchase
